PROFESSIONAL SUMMARY

Results-driven MCA student specializing in Frontend Development, Full Stack Development, and Software Engineering, with hands-on experience in React.js, Node.js, Express.js, Java, JavaScript, REST APIs, and Cloud Technologies. Skilled in building scalable, high-performance web applications with modern frameworks and industry-standard tools. Strong understanding of Data Structures & Algorithms (DSA), Agile Development, Version Control, and Responsive UI/UX design. Seeking opportunities to contribute to fast-paced engineering teams as a Frontend Developer, MERN Stack Developer, or Full Stack Developer.

PROJECTS

Quiz Creator App | MERN Stack | Live

- Developed a secure quiz creation platform with JWT authentication, role-based access, and protected routes.
- Designed RESTful APIs for user & quiz management with password hashing and token validation.
- Implemented an adaptive quiz-generation algorithm for dynamic question difficulty.

Travel Companion App | React, Python, Firebase

- Built an AI-powered travel assistant that identifies the fastest transport mode and shortest route.
- Designed a responsive React frontend and Python backend for real-time route prediction.
- Integrated Firebase for authentication, secure user management, and cloud data storage.

Java Bank Management System | Java, MySQL

- Developed a desktop-based banking application to manage customer accounts, deposits, withdrawals, and balance inquiries.
- Implemented object-oriented programming concepts, JDBC connectivity, and secure transaction handling.
- Designed a user-friendly interface with efficient database management for account records and transaction history.

EDUCATION

Master of Computer Applications (MCA) — 2024 – Present

- VESIT, Chembur · Current CGPA: 8.12
- Coursework: AI/ML, Java Full Stack, UI/UX, Agile, DevOps (Docker, Jenkins), Git/GitHub.

Bachelor of Science – Chemistry — 2020 – 2023

- B.K. Birla College Autonomous, Kalyan · CGPA: 8.30

TECHNICAL SKILLS

- Programming Languages: Java, JavaScript (ES6+), SQL, Python (Basics)
- Frontend Technologies: HTML5, CSS3, Tailwind CSS, React.js, Redux Toolkit, Responsive Web Design
- Backend Technologies: Node.js, Express.js, REST API Development, Authentication & Authorization (JWT, OAuth)
- Databases: MySQL, MongoDB, Firebase, Appwrite
- Tools & Platforms: Git, GitHub, VS Code, Postman, Docker (Basics), Jenkins (Basics), Linux Commands
- Cloud & DevOps: Firebase Cloud, AWS (Foundational), CI/CD Concepts
- Core Competencies: Problem-Solving, Object-Oriented Programming (OOP), DSA, Agile/Scrum, Debugging, SDLC, Performance Optimization

CERTIFICATIONS

NPTEL – Programming in Java (12 weeks) · Jan 2025 – May 2025

AWS Academy – Machine Learning Foundations · Jan 2025 – Apr 2025
